[Meta Front-End Developer Certificate](#)

Issued by: [Coursera](#)

Authorized by: [Meta](#)

Issued to: Mohammed Musny

Issued on: 11 September 2024

Description: The Meta Front-End Developer Certificate is awarded to learners who complete a series of courses on front-end web development, hosted by Coursera. With a focus on React.js, these rigorous, self-paced courses, developed by Meta experts, prepare a candidate for an entry level job as a front-end developer. The courses culminate in the successful completion of a capstone project.

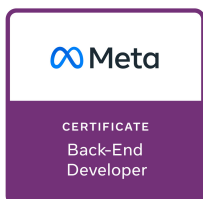

[FIBAA](#)

Total Credits: 8 Grade: Pass

Credit Recommendation:

- 8 semester hours

[Meta Back-End Developer Certificate](#)

Issued by: [Coursera](#)

Authorized by: [Meta](#)

Issued to: Mohammed Musny

Issued on: 25 September 2024

Description: The Meta Back-End Developer Certificate is awarded to learners who complete a series of courses on back-end development, hosted by Coursera. With a focus on Python, these rigorous, self-paced courses, developed by Meta experts, prepare a candidate for an entry level job as a back-end developer. The courses culminate in the successful completion of a capstone project.

[FIBAA](#)

Total Credits: 8 Grade: Pass

Credit Recommendation:

- 8 semester hours

[Google UX Design Professional Certificate](#)

Issued by: [Coursera](#)

Issued to: Mohammed Musny

Issued on: 1 December 2024

Description: Those who earn the Google UX Design Certificate, developed by Google, have demonstrated their competence in the end-to-end design process. Through hands-on activities and assessments, graduates develop proficiency in empathizing with users, defining pain points, ideating solutions, creating wireframes and prototypes, and testing designs, preparing them for introductory-level roles in UX design.

[FIBAA](#)

Total Credits: 9 Grade: Pass

Credit Recommendation:

- 9 semester hours

[JavaScript Essentials 1](#)

Issued by: [Cisco](#)

Issued to: Mohamed Musny Mohamed Mubarak

Issued on: 11 October 2023

Description: Cisco, in collaboration with OpenEDG JS Institute, verifies the earner of this badge successfully completed the JavaScript Essentials 1 course and achieved the student level credentials. Earners know the syntax of the core JavaScript; can work with variables, operators, flow control, and functions; know the basics of data types system; think algorithmically and can analyze problems using a programmatic conceptual apparatus; and can design, develop, and improve simple JavaScript programs.

[Introduction to Cybersecurity](#)

Issued by: [Cisco](#)

Issued to: Mohamed Musny Mohamed Mubarak

Issued on: 2 January 2024

Description: Cisco verifies the earner of this badge successfully completed the Introduction to Cybersecurity course. The holder of this student-level credential has introductory knowledge of cybersecurity, including the global implications of cyber threats on industries, and why cybersecurity is a growing profession. They understand vulnerabilities and threat detection and defense. They also have insight into opportunities available with pursuing cybersecurity certifications.

[Python Essentials 2](#)

Issued by: [Cisco](#)

Issued to: Mohamed Musny Mohamed Mubarak

Issued on: 2 January 2024

Description: Cisco, in collaboration with OpenEDG Python Institute, verifies the earner of this badge successfully completed the Python Essentials 2 course and achieved the student level credentials. Earners have knowledge and skills in intermediate aspects of Python programming, including modules, packages, exceptions, file processing, as well as general coding techniques and object-oriented programming (OOP), and prepares the learner for the PCAP – Certified Associate in Python Programming certification.

[Meta Full-Stack Engineer Certificate](#)

Issued by: [Coursera](#)

Authorized by: [Meta](#)

Issued to: Mohammed Musny

Issued on: 10 October 2024

Description: The Meta Full-Stack Engineer Certificate is awarded to learners who complete both the Front-end and Backend Developer certificate programs, hosted by Coursera. These rigorous, self-paced courses, developed by Meta experts, prepare a candidate for an entry level job as a full-stack developer. The courses culminate in the successful completion of capstone projects.

[Software Engineering Essentials](#)

Issued by: [Coursera](#)

Authorized by: [IBM](#)

Issued to: Mohammed Musny

Issued on: 23 October 2024

Description: The badge earner has demonstrated an understanding of the software development lifecycle and the software building process. They have a foundational knowledge of software development and the tools used for it and can identify basic programming constructs. They can describe various types of system architectures, software architectures, and deployments. The badge earner can also identify the skills needed for software development roles and describe career opportunities for software engineers.

[Git and GitHub Essentials](#)

Issued by: [Coursera](#)

Authorized by: [IBM](#)

Issued to: Mohammed Musny

Issued on: 23 October 2024

Description: This badge earner has demonstrated how to use Git and GitHub as code repositories for developing applications. They understand why version control is essential in creating open-source and commercial software. The badge earner can create repositories and branches, perform pull requests and merge operations, and use these repositories to collaborate with their teammates.

[Linux Commands & Shell Scripting Essentials V2](#)

Issued by: [Coursera](#)

Authorized by: [IBM](#)

Issued to: Mohammed Musny

Issued on: 23 October 2024

Description: This badge earner has demonstrated a foundational knowledge of Linux commands and shell scripting. The individual can perform general-purpose, directory management, file management, access control commands, and networking commands. The badge earner has hands-on experience creating simple and advanced shell scripts and scheduling cron jobs using crontab. The earner knows the frequently used commands and shell scripting basics required to become a successful data engineer.

[Python for Data Science and AI](#)

Issued by: [Coursera](#)

Authorized by: [IBM](#)

Issued to: Mohammed Musny

Issued on: 23 October 2024

Description: This badge earner has the core skills in Python such as critical data structures, programming fundamentals and experience with core libraries for data science. They can apply this knowledge to work with data and develop applications for data science. The individual also has sufficient Python knowledge to work with Python libraries.

[Applied Software Engineering Fundamentals](#)

Issued by: [Coursera](#)

Authorized by: [IBM](#)

Issued to: Mohammed Musny

Issued on: 23 October 2024

Description: This credential earner has demonstrated an understanding of software engineering foundations. They can describe the phases, roles, and tools used to develop, test, and deploy software, and can describe programming constructs and system architectures. The earner is able to explain version control, create GitHub repositories, and use Git commands. They can list and execute common Linux commands and create simple shell scripts, as well as develop applications using Python language and use APIs.

[Python Project for AI and Application Development](#)

Issued by: [Coursera](#)

Authorized by: [IBM](#)

Issued to: Mohammed Musny

Issued on: 23 October 2024

Description: This badge earner is able to apply foundational Python skills by implementing different techniques to develop applications and AI powered solutions. The individual has acquired the confidence to begin developing AI enabled applications using Python, build and run unit tests, and package the application for distribution.

[AWS Educate Introduction to Cloud 101 - Training Badge](#)

Issued by: [Amazon Web Services Training and Certification](#)

Issued to: Mohamed Musni Mohamed Mubarak

Issued on: 18 March 2025

Description: Earners of this badge have completed the Cloud Computing 101 training and achieved the required scores on the post-course assessment. They have demonstrated the ability to create simple cloud applications in a virtual lab environment. They have shown a fundamental understanding of AWS cloud core services and understand the technical roles required for cloud success.

[AWS SimuLearn - Cloud Practitioner - Training Badge](#)

Issued by: [Amazon Web Services Training and Certification](#)

Issued to: Mohamed Musni Mohamed Mubarak

Issued on: 27 March 2025

Description: Earners of this badge have demonstrated basic solution building knowledge using AWS services and have a fundamental understanding of AWS Cloud concepts. Badge earners have acquired hands-on experience with compute, networking, database and security services.

[DevOps Essentials](#)

Issued by: [Coursera](#)

Authorized by: [IBM](#)

Issued to: Mohammed Musny

Issued on: 23 April 2025

Description: This credential earner has demonstrated foundational knowledge of the basic characteristics of DevOps. The individual has explored the concepts of breaking down silos and how to organize developers and operators into a single cross-functional DevOps team. The badge earner is also able to describe DevOps as a cultural movement, as well develop a business case for DevOps.

[Introduction to Cloud Computing](#)

Issued by: Coursera

Authorized by: IBM

Issued to: Mohammed Musny

Issued on: 20 May 2025

Description: This badge earner understands the basics of cloud technology and is able to describe cloud platforms and models including IaaS, PaaS, SaaS, and public, private and hybrid multiclouds. The badge earner is familiar with essentials of cloud applications and terms like Virtualization, VMs, Containers, Object Storage, Microservices, Serverless, Cloud Native, and DevOps. The individual has also gained hands-on experience at creating a cloud account and provisioning services on IBM Cloud.

[Containers & Kubernetes Essentials](#)

Issued by: Coursera

Authorized by: IBM

Issued to: Mohammed Musny

Issued on: 11 June 2025

Description: This badge earner is able to build and run a container image and understands Kubernetes architecture. They know how to: write a YAML deployment file; expose deployment as a service; manage applications with Kubernetes; use ReplicaSets, auto-scaling, rolling updates and service binding; deploy services; and reap the benefits of OpenShift, Istio and other key tools.

[Continuous Integration & Continuous Delivery \(CI/CD\)](#)

Issued by: Coursera

Authorized by: IBM

Issued to: Mohammed Musny

Issued on: 1 August 2025

Description: This badge earner can define a CI/CD pipeline & standard CD tools. They understand Tekton & know how its components work together to create a CD pipeline. They can build a pipeline, pass parameters to a pipeline, build triggers to start pipeline runs, implement reusable tasks, & create custom tasks. They understand how to complete a CD pipeline by building a container image & deploying an application to an OpenShift Kubernetes cluster using OpenShift Pipelines & GitOps tools like ArgoCD.

[Application Development using Microservices and Serverless](#)

Issued by: Coursera

Authorized by: IBM

Issued to: Mohammed Musny

Issued on: 14 August 2025

Description: The badge earner understands the concept of twelve-factor apps and microservices and how they relate to the software delivery lifecycle. The learner has demonstrated proficiency in creating and testing Swagger documentation for REST API endpoints. In addition, they can make API requests using cURL and Postman technologies. The badge holder can create a serverless function. They can build and deploy applications using container images on the code engine.

END OF TRANSCRIPT

YOUR PARTNER FOR EXCELLENCE
IN HIGHER EDUCATION **FIBAA**

FIBAA TRANSCRIPT LEGEND

This transcript contains credentials certified by FIBAA – Foundation for International Business Administration Accreditation. The following policies apply only to FIBAA certified credentials within the transcript. FIBAA certifications support the recognition of prior learning by validating formal learning experiences gained outside European Higher Education Institutions against academic standards in the European Higher Education Area (EHEA), thus supporting learners to apply for and gain recognition of ECTS (European Credit Transfer System) credits when entering an academic programme in Europe.

[FIBAA \(Foundation for International Business Administration Accreditation\)](#) is a European quality assurance agency for higher education and continuing education programmes. Founded in 1994, FIBAA is registered as an accreditation agency in Germany, Austria, Switzerland and further countries in Europe and abroad. In Europe, FIBAA is a member of ENQA (European Association for Quality Assurance in Higher Education) and of CEENQA (Central and Eastern European Network of Quality Assurance) and registered with EQAR (European Quality Assurance Register for Higher Education). On a trans-European level, FIBAA is member of INQAAHE (International Network for Quality Assurance Agencies in Higher Education) and AQAN (ASEAN Quality Assurance Network).

Each FIBAA certification is conducted by a team of experienced university faculty, an expert from professional practice and a qualified student. The panel team assesses the content, scope, and rigor of an organization's educational programme against the standards of the ESG (European Standards and Guidelines), the ECTS Users' Guide and the EQF (European Qualification Framework). The panel team makes appropriate recommendations for comparable ECTS credits and competencies achieved by students. For more information on processes and standards for FIBAA reviews, visit [FIBAA: Certification Procedures](#).

DEFINITIONS

FIBAA Endorsement: Credentials that carry a FIBAA endorsement of recommended ECTS credits are designated by the FIBAA logo in the left margin.

Name: Legal name as entered by the student at the time of transcript request. Because students may complete courses from multiple organizations, each credential also includes the name under which the credential was issued for tracking and verification if necessary.

Issued on: The date when the student completed the associated credential.

Credit Recommendations: Recommendations for credits are designated in ECTS. Each recommendation includes a total number of ECTS credits recommended and an EQF level assignment. Levels for which recommendations are issued include EQF levels 5 (mapping short cycle QF-EHEA), 6 (mapping first cycle QF-EHEA), 7 (mapping second cycle QF-EHEA) and 8 (mapping third cycle QF-EHEA).

Grade: FIBAA-endorsed credentials are only included on this official transcript if the student achieved a passing grade. FIBAA certification includes a validation of the assessments to be conducted by the learners, ensuring the assessments' appropriateness to reach the learning objectives on the assigned EQF level.

Intended EQF-Level: FIBAA certification includes a validation of the intended EQF level of the course to ensure learning objectives on EQF levels 5-8 (mapping the QF-EHEA levels short cycle, first cycle, second cycle, and third cycle, respectively).

RESOURCES

Additional information on FIBAA-endorsed educational programs, such as learning outcomes, assessment methods, etc. can be found at [FIBAA: Certification Procedures](#).
