Hiring Manager,

Optimize Solutions,

Colombo, Sri Lanka.

### **Application for Frontend Internship**

Dear Hiring Manager,

I am writing to express my interest in the **Full Stack Software Engineer Intern** position at Optimize Solutions. As a final-year undergraduate in Information Technology and an aspiring full stack developer, I am excited about the opportunity to contribute to your mission of building user-focused, scalable web applications.

I have hands-on experience developing responsive interfaces using **React.js**, **JavaScript (ES6+)**, **HTML**, **CSS**, and **Tailwind CSS**. On the backend, I am comfortable working with **Node.js** and have a working knowledge of **MySQL** for database management. I have also integrated frontend components with RESTful APIs, used **Git** for version control, and collaborated in Agile team settings.

I am eager to expand my skill set by learning **Next.js** and adopting emerging technologies as part of your team. Beyond my technical skills, I bring strong collaboration abilities, attention to detail, and a proactive attitude towards learning and growth. I am particularly drawn to Optimize Solutions' focus on delivering high-quality, creative web solutions, and I am excited about the possibility of contributing to this vision.

Thank you for considering my application. I have attached my resume for your review and would welcome the opportunity to discuss how I can add value to your development team.

Sincerely,

**Mohamed Musni**
